## PROJECTS

### FrostFlip - Personal Project

JULY 2025

- Developed the logo and UI for FrostFlip, creating **10+** wireframes and **1 high-fidelity prototype** viewed over **200 times** within the first month.
- Developed **5+** Interface screens using Figma and implemented interactive components in Framer, leading to a fully responsive design.

### ProjectPat

JAN 2025

- Designed and developed the **user interface** for a collaborative web-based platform.
- Translated the high-fidelity prototype into functional front-end code using **JavaScript**.
- Collaborated with version control tools such as **Git**.

### Pizza Ordering App

NOV 2022

- Developed a comprehensive Pizza App emphasising **user centred design** principles to enhance **user experience**.
- Collaborated within team to deliver project through **analysis, design, prototyping** (low fidelity, then high), **testing and implementation**.
- Designed using **Figma**.

## WORK EXPERIENCE

### Frost Designs

JULY 2021- present

#### Freelance Graphic Designer

- Liaised with **10+ clients** to understand design needs, streamlining requirements gathering and reducing revision rounds by **30%**.
- Managed **5+ design projects** simultaneously, delivering **100% on time** while maintaining high client satisfaction.

### Eggrun

JUNE 2022 - SEPT 2022

#### Front of house

- Managed the handling of orders (including online) and transactions at the till, increased Sales by 7%, showcasing reliability and pressure-resistant skills.
- Facilitated the team by lifting heavy resources (food, new equipment, drinks) when delivered so the workflow was more efficient.

### Leonardo Hotel

NOV 2021 - JUNE 2022

#### Food and Beverage Assistant

- Managed **20+ guest enquiries** per shift, resolving requests and complaints with a **95% satisfaction rate**.
- Supporting other departments such as Housekeeping (insufficient staff) to improve efficiency.
